

Navigation Sediment Placement Database

Nicole Elko, Ph.D.

2018 Regional Sediment Management (RSM) In-Progress-Review

May 15, 2018

Project Overview

- Nationwide inventory of Federal Navigation projects
- Determine extent to which RSM goals and BUDM have been implemented
 - Since 1998 when 67th CERB theme was “Regional Sediment Management”
- Data sources: IWR Navigation Data Center’s Dredging Information System (DIS) and internal District databases
- Products: Web-application, 2 databases, report, transition plan/user guide

USACE - Navigation Sediment Placement (1998 - Present)

DIS Database “Refinement”

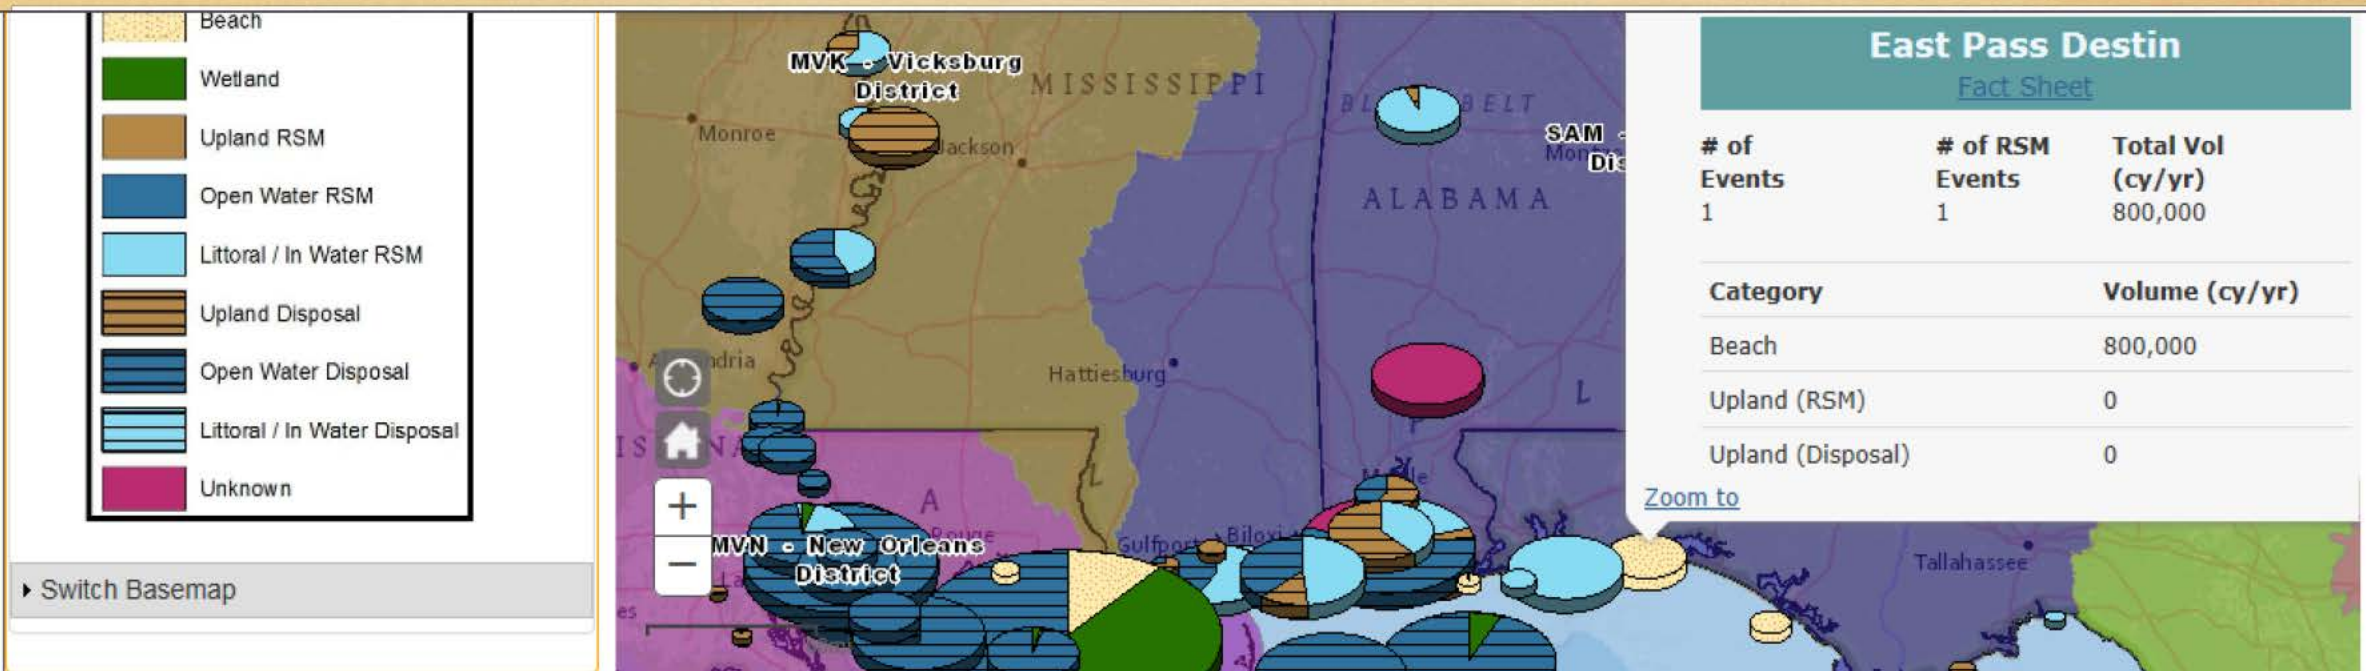

- QA/QC all 4,205 individual projects since 1998
- Excellent DIS data = no unknowns
- District’s internal databases
 - MVN, MVM, SPL, SPN, NWP, SWT, NAE
- Interviews – discuss specific questions
- → District Specific/QC database

Results (1998 to 2016)

- 200-300 Mcy dredged annually by USACE* & 20-30% is used beneficially*
-
- **215 Mcy/yr** from navigation projects Nationwide
 - 75 Mcy/yr used beneficially – **35%** (only 25% in DIS)
 - 14.1 Mcy/yr → Beaches
 - 14.9 Mcy/yr → Wetlands
 - 48.1 Mcy/yr → Littoral (in-water)
 - 5.9 Mcy/yr = Unknown (45.2 Mcy/yr in DIS)

East Pass Destin	1	1	800,000	800,000	800,000								
GIWW / Gulf Intracoastal	6	6	1,630,813	1,630,813					1,630,813				
Totals	143	70	7,510,083	20,101,664	1,086,689		302,082		6,121,311	3,182,810	7,088,886		2,319,876

Next Steps

- Obtain & load 2017 DIS and internal District data
- QA/QC
- Meet with Districts
- Finalize report
- Submit transition plan/user guide

Congratulations Linda!

- **ASBPA 2018 “Lifetime Achievement” Award**
- This award is given to an ASBPA member who demonstrates a **lifetime of dedicated service** to advancing shore and beach preservation while working in the federal government and through active participation in ASBPA.
- This award is only occasionally given when a **truly extraordinary** candidate is nominated.

Thank you!
